### BLACKS BROUGHT TO BEET FIELDS AS MEXICANS GO ON STRIKE

25 Negroes Are Imported to Orange County From Los Angeles

#### OFFICERS ON GUARD AGAINST RACE CLASH

Colored Folk Will Be Given Protection From Possible Trouble

Negroes today are being imported into Orange county to relieve the labor situation developing through the refusal of Mexicans to take contract jobs or to work for less than \$3 or \$4 a day. Twenty-five were brought into the beet fields this afternoon from Los Angeles and agents of the sugar factories and farmers are now in Los Angeles securing more.

I. M. Von Schiritz was the first Orange county farmer to introduce this class of labor in the beet fields. He secured a number of them for thinning beets on his ranches and they proved excellent help—dependable and hard workers. Two or three women are in the number and they are said to do as much work as the men.

Whether the hundreds of Mexicans in the county who have been waiting for the opening of the beet season and are now waiting for farmers to meet their wage demand, will attempt to cause trouble because of the importation of negroes from outside, is a point that is giving officers some little concern and every effort will be made to guard the colored people.

The big 1200-ton plant of the Holly Sugar corporation at Huntington Beach will start grinding beets tomorrow morning. Three hundred tons of beets are now on the dump, and when the wheels of the big factory commence to grind tomorrow morning they will continue for a period of at least 100 days. The sugar mills at Santa Ana will start in one or two weeks.

The factories are experiencing no trouble in getting all the help they need for operation. The harvesting of the crop is where the trouble is being experienced.

In order to counteract dissatisfaction created by agitators who have been talking to Mexicans in the sugar beet sections, Sheriff Jackson last night went to Talbert and made an address to a gathering of Mexicans. The sheriff's address was translated as it proceeded by an interpreter.

Yesterday was really the beginning of the sugar beet harvest at Talbert. Beet dumps at South Talbert, Kianth and Bushard were opened, and sugar beet hauling was started. Owing to trouble with the laborers, however, but few beets were delivered yesterday. Today the situation is somewhat cleared as a result of the sheriff's talk, but some of the growers are still having considerable trouble.

The growers have been offering to contract with Mexicans to pay them sixty cents a ton for topping and loading beets when the tonnage is fifteen tons to the acre, with twenty and thirty cents a ton added when the tonnage is less than fifteen. It is estimated that the toppers would make about \$2.50 a day on that basis.

Yesterday sugar factory men reported to the courthouse authorities that there was trouble in the Talbert section. Agitators had been at work and some of the beets that had been plowed up were left in the field.

Investigation showed that advice had been given the Mexicans to strike for higher pay at once. They were told to demand a pay of \$3 a day now while help is plentiful and just as soon as the season advances to a point where help is scarce they should demand \$5 a day.

The Mexicans were threatened. They were told that if they did not stand together and make the growers pay higher prices, there would be trouble for the Mexicans. They were told that the Mexican who went out and worked at the present scale would get a knife stuck in his back.

Another feature that met with opposition was the offer of the sugar companies to give a bonus of ten cents to the workers, the bonus to be withheld till the end of the season. The agitators told the Mexicans they

### HUSBAND COMES HOME AT NOON AND FINDS HIS WIFE LYING DEAD

Mrs. Alice A. Phinney Passes Away Suddenly At Her Home On Riverine

Mrs. Alice A. Phinney, aged 64 years, wife of Nelson C. Phinney and mother of Mrs. Lillian M. Blew, was found dead on the floor of her home at 825 Riverine avenue this noon, when her husband went home for his dinner.

A physician was called and said that life had been extinct for some time.

### JOHN W. FORD NAMED MOOSE HIGH DICTATOR

PITTSBURG, July 24.—John W. Ford of Philadelphia was today elected Supreme Dictator of the Loyal Order of Moose by the twenty-ninth annual international Moose convention.

### \$1,500,000 COAL MINE COMPANY PLANS WORK IN SANTIAGO

Corporation Is Launched By Five Prominent Orange and Santa Ana Men

Incorporated at \$1,500,000, a company composed of four Orange citizens and one Santa Ana is preparing to launch a big development project on coal property located in the Santiago canyon, about three miles east of the Orange county park.

In consideration for stock in the new company, S. M. Cradick, pioneer and prominent real estate dealer at Orange, has transferred to the corporation the coal property, consisting of 100 acres.

Cradick is president of the company. A. J. Padgham, well known Santa Ana jeweler, vice-president; K. E. Watson, Orange druggist, secretary, and E. W. Canfield and L. J. Danner, both of Orange, other directors.

"The property we plan to develop," Cradick said today, "is proven coal land. The coal we have is bituminous and from it fine coke can be obtained. Briquets also can be produced from the product of the tunnels, of which there are already a number on the property."

Cradick said that the disposal of the stock had been given over to a large Los Angeles concern. Articles of incorporation have been filed at Sacramento.

The product of the mines, which first were operated about twenty-five or thirty years ago, will be marketed principally in San Francisco and the East, Cradick states.

Three men are now at work on the property. According to Cradick, when operations begin in earnest twenty-five men will be employed.

### OPERATION TO KILL CHILD IS EFFECTIVE

CHICAGO, July 24.—Following an operation designed to prevent it growing up a malformed idiot, the infant daughter of Mr. and Mrs. William Meder of Pullman, Ill., died here this afternoon.

The operation was performed by Dr. Harry J. Haiseldon, the physician who, in November, 1915, at the same hospital, refused to save the life of a child that would have grown up deformed and mentally feeble.

The Meder baby's skullcap was missing when born. It had a diminutive brain, which promised imbecility. It was otherwise seriously deformed. The Meders agreed to allow Dr. Haiseldon to perform the operation.

### L. A. MAN IN CHARGE OF CAMP RECREATIONS

LOS ANGELES, July 24.—Notice of his commission to take charge of all recreation work in the officers' and soldiers' training camps of the United States was received today by Dr. Everett C. Beach. Dr. Beach was formerly supervisor of physical education in the local school system. He will leave for Washington shortly.

### THINKS SANCHEZ WAS MAN SEEN BY HAYBALERS MONDAY EVE

Another Report Says Man Wanted for El Toro Killing Returned to Camp

A man thought to be Jose Sanchez, wanted for killing Loran Eckles at El Toro Saturday night, was seen making his way through the foothills of Rattlesnake canyon last night at dusk.

"I believe it was Jose Sanchez," said Under Sheriff Iman today, after he had talked with W. H. Clary, who reported the matter to the office of Sheriff Jackson.

Yesterday evening some haybalers saw a man hastening through the brush two miles up Rattlesnake canyon above Clary's ranch house. Rattlesnake canyon is the first big canyon southeast of Peters canyon. The hay baling outfit was at work far up the canyon, portions of which are farmed by Clary. Between 6 and 7 o'clock, after the sun was down behind the hills, a man was seen farther up the canyon. He sat down at the edge of the barley field.

When some of those who were at work on the baling outfit walked toward him, the man got up, climbed the west side of the canyon and disappeared over the top of the hill. The men could not tell whether or not the stranger was a Mexican. He wore a white shirt and no coat. The place is so far out of the way that it hardly seems probable that anyone would have any business there.

However, the officers say that the man may not have been Sanchez. Examination of the ground by Under Sheriff Iman and Deputy Eells showed no tracks. The ground is hard as a rock. The matter was reported to the sheriff's office this morning.

A close lookout for Sanchez is being kept by officers all over Southern California, and it is the hope of officers that he will be arrested in the next twenty-four hours. If not arrested in that time, the chances are the man will have made his way to Mexico.

At El Toro today there was a story to the effect that Sunday afternoon at 4:30 o'clock Sanchez appeared at an apricot camp on the Harvey Swartz ranch, where Sanchez and his brother Pedro worked, and got a second revolver and some ammunition, and said that some others would die before he was arrested.

The sheriff said that he was running the report down, but had been unable to get any definite information to show that the report was based on fact.

Last night Pasadena officers arrested a Mexican named Jose Sanchez, but he proved not to be the Jose Sanchez wanted here. The man wanted for the El Toro shooting has a noticeable scar across his throat.

#### Munger's Statement

Horace Munger, of El Toro, was in the city this afternoon, and corrects a statement in the reports of the shooting at El Toro Saturday night. He denies that he ever put Joe Yorba out of the dance hall when he was floor manager for a dance.

According to Munger it was fully three-fourths of an hour after he and the others of his party were warned that the Mexicans were plotting against them before he went out; that when he did go out, it was at the invitation of a Mexican who told him that he and Carl Waterman and Eckles were wanted outside.

When the three men reached the scene of the hall they were assailed by Mexicans with beer bottles. Munger was made to sit like each of them over the head. Munger danced twice during the evening. Eckles did not dance at all.

### 2 GASHED IN L. A. IN ROW OVER CHILDREN

LOS ANGELES, July 24.—Enraged at a decision of the court in awarding his children to foster parents, Frank Lomonaco turned his wrath upon Joseph Surrao and Mrs. Surrao, to whom the children had been awarded, and slashed both with a knife. Surrao was seriously wounded; Mrs. Surrao only slightly. The attack occurred in Judge Houser's court. Bailiffs overpowered Lomonaco and placed him in a cell charged with assault with intent to kill.

### DISTRICT NO. 1 QUOTA IN ORANGE COUNTY IS 181 AND NO. 2 IS 204

Adjutant General Announces Apportionments; 'Credits' Are Allowed For

According to definite announcement by Adjutant General Boree at Sacramento Orange County Exemption District No. 1 must furnish 181 men for the first army, while District No. 2 must furnish 204. As hitherto announced, that makes the total 385 for Orange county.

Estimates have been made frequently in the last six weeks as to how many men Orange county would have to furnish. The basis of population and registration has been used in making estimates, which varied widely. For a time it was thought that No. 1 would have to furnish 155 men.

In finally settling the appointment, the adjutant-general took into consideration the number of men already enlisted in Federal war service from this country.

The local exemption board has not yet received any definite instructions from Washington. Probably by the end of this week, however, the instructions will be here.

Dr. J. L. Beebe of Anaheim, has been reassigned by Governor Stephens from the No. 12 district draft board in Los Angeles to Orange county district No. 2, according to announcement by Dr. Beebe today. This follows the reassignment of Dr. John Wehrly of Santa Ana from a San Diego district to Orange county district No. 1. Dr. C. D. Ball of Santa Ana and Dr. J. L. McKillop of Huntington Beach have not as yet received notice of reassignment from Los Angeles districts No. 9 and 12, respectively.

### MANY ENLISTING AS TIME FOR DRAFT NEARS

ENLIST!  
If you are in the first draft it would be the part of wisdom for you to enlist in Company L, where you will be under officers known to you and who will look after your interests.

When your name is posted, calling on you to appear before your exemption board to be examined for the selective service army, you can no longer choose the branch of service in which you desire to serve, nor can you select the company you prefer.

It is better to enlist than to wait to be drafted.  
DO IT NOW!

With but a few days remaining in which drafted men may enlist in war service, recruiting activities continue at a high pitch.

Among those who went to Los Angeles yesterday for examination was John L. Baier of Orange, who sought to enlist in 18 Company Coast Artillery.

A number of Santa Anans, desiring to enlist in Company L, Seventh Regiment, N. G. C., are in Los Angeles today, taking examinations. Local recruiting headquarters expect to send to Los Angeles a considerable number of additional applicants before the draft becomes finally effective. Lynn Brady and Fred M. Slaven of Santa Ana and Clarence D. Bay of Orange will go to Los Angeles tomorrow to take examinations for enlistment in Company L.

### RECRUITING AT S. F. TAKES GREAT SPURT

SAN FRANCISCO, July 24.—Recruiting boomed in San Francisco today. Announcement that drafted men can still volunteer and pick their branch of the service, has caused a rush to recruiting offices.

The California field artillery regiment, which is to be California's distinctive organization on the French front, is standing first in popularity. The League of the Cross Cadets have begun organization of a battalion for the regiment and there was a rush today to sign applications. At the general headquarters of the regiment six men are busy making enrollments.

Army, navy and marine corps recruiting headquarters also have been forced to put on extra men to handle the recruits.

### VAST SUM ASKED BY M'ADOO TO COVER FRESH U. S. OUTLAYS

Wilson Jumps Into Breach In Effort to Untangle Snarls Threatening Vital Moves

WASHINGTON, July 24.—America's war cost will approach twenty billions, Senator McAdoo said today, for the first year's fighting. Up to the present approximately ten billions have been appropriated.

Today's budget of five billions urged by Secretary McAdoo brings the appropriations up to fourteen billions, nine hundred twenty-two million, a sum almost as great as Britain's total bond issues for three years of warfare. In addition to this Congress will soon be called upon to authorize five billions for the Allies, bringing the total up to approximately twenty billions.

WASHINGTON, July 24.—Secretary of the Treasury McAdoo today submitted to Congress a new \$5,000,000,000 war revenue budget five minutes before Chairman Simmons of the Senate finance committee was to have introduced the \$1,672,000,000 revenue bill, just completed after weeks of labor.

This bill is expected to be held up indefinitely.

At the Treasury Department it was stated the money asked covered new estimates made by the War Department.

WASHINGTON, July 24.—President Wilson today set himself to untangling snarls that threaten successful prosecution of war work.

It was stated at the White House that a solution of the Denman-Goethals shipping row is in sight. The President expects to take action today on the situation, which now involves an offer to resign by General Goethals and Captain White.

At the same time he exerted pressure on House and Senate food bill conferences to eliminate that section of the measure which provides a congressional war committee. The President says such a committee would make his work well nigh impossible. He expected to take specific action regarding drafting of aliens within a few days, and sign the \$640,000,000 aeroplane bill before night.

While this work went on the provost marshal general's office sent out further nominations for appellate exemption boards.

The master lists were mailed. Secretary McAdoo conferred with Simmons of the Senate finance committee regarding additional estimate of \$5,000,000,000 required by the War Department. The conference resulted in Simmons holding up his report on the \$1,672,000,000 revenue bill just completed.

### \$13,000 HEART BALM IS ASKED BY L. A. MAN

LOS ANGELES, July 24.—Loss of the love of Rebecca Yager is worth \$13,000 to Grant S. Keim, who has brought suit against Mrs. Yager for that sum. They had promised to marry, he alleges, and on that promise he spent \$3000. Then she married Yager. He seeks \$10,000 additional as balm for suffering and anguish.

### DRESS REFORM STIRS WOMEN OF ENGLAND

LONDON, July 7 (By mail).—Mere man is willing to wear semi-military breeches and other "rational" clothing if women will wear 'em, too. Then, the man-pant figures, neither sex will be apt to do any tittering over the shape of the other's legs.

English tailors have devised a uniform for civilian wear with the hope of simplifying clothes-production. It consists of tunic, slightly military, breeches, resembling those worn by the cavalry, puttees or stockings, and cap.

Many people, men and women showed alarm over the suggested reform and were promptly accused of hiding bow-legs, knock-knees and absent calves. The owners of shapely underpinnings, especially the men, are perfectly willing to have a show-down.

One of the rules of the "rational dress" movement is that pads don't go.

### PRESIDENT WILSON ACCEPTS RESIGNATION OF GENERAL GOETHALS

Sweeping Steps Are Taken By Executive to End Row Over Ship Building

WASHINGTON, July 24.—Sweeping steps were taken today by President Wilson to compose the row delaying the building of America's merchant marine. The resignations of General Goethals, manager of the emergency fleet corporation, and Captain White, member of the shipping board were accepted. Chairman Denman was asked to resign. The President appointed Edwin R. Hurley, chairman, and Admiral Capps as general manager. Bainbridge Colby was named as White's successor.

"We will start with a clean slate," the President wrote General Goethals.

### GUARD FROM 20 STATES TO BE CALLED OUT

Tomorrow Is Day Set For New Order to Be Executed In Various Parts U. S.

WASHINGTON, July 24.—The United States tomorrow will call out its second group of National guardsmen for intensive training. Twenty states, including New England, a fringe of the old South, part of the Northwest, and others will respond. The list reads: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Tennessee, Illinois, Montana, Wyoming, Idaho, Washington and Oregon.

The guards will be held at home armories or state concentration camps until such time as the southern tented camps are ready. As there still is much construction work, building wooden kitchens, mess halls and the like, some of the troops at least will not head south for a month. None of the first called guardsmen have yet moved, though the war department said today that movement probably would start next week, as the first of the camps are rapidly nearing completion.

Sufficient supplies will be ready for the men by the time they reached camp.

The question of furnishing higher officers to the National guard is still in abeyance. Sixteen major generals and sixty-two brigadier generals are needed and most of these will be drawn from the present organization, though in a few isolated cases it is likely commanding officers may be forced out.

The Department has decreed that as a general rule, it will not assign any regular army officer to a position in the guard lower than brigadier. There will be few such plums outside the guard ranks, however.

### BULLETINS

PARIS, July 24.—America was represented at the first of the allied war conferences by Vice-Admiral Sims. The commander-in-chief of the national forces in European waters attended a meeting in company with Sir John Jellicoe and other allied naval heads.

MIAMI, Ariz., July 24.—Federal Conciliator John McBride will be asked by the citizens' committee to invoke the aid of the federal Department of Labor as a result of the failure of nine managers of this district to consider a conference suggested in resolutions presented. The Western Federation has endorsed the move of the citizens' committee that the I. W. W. be excluded from all mediation moves.

MIAMI, Ariz., July 24.—Axel Johnson is in the county jail at Globe today, charged as a German spy. While under guard at the hospital for an operation Johnson said he was a member of a German officers' reserve corps, masquerading as a Swede and acting as a spy for the Kaiser. Federal authorities were summoned. Johnson was given more gas and more information was revealed. Karl Keetner, arrested on a similar charge, admitted that he was in an internment camp in Canada when the war started.

### SLAVS LOOK TO KERENSKY TO SAVE NATION FROM WRECK BY ANARCHY

Representatives of All Russia O. K. Giving Supreme Powers to Gov't.

### WHOLESALE ARRESTS MADE IN PETROGRAD

New Republic Pins All Faith In Premier to Restore Armies' War Spirit

BY WILLIAM G. SHEPHERD (United Press Staff Correspondent)  
PETROGRAD, July 24.—Representatives of all Russia late last night unanimously approved delegation of "supreme authority" to the Russian provisional government. Confirmation of all measures which the new socialist-coalition cabinet may take in putting down mutiny at home and in the army, is thus given.

The vote was by the executive committee of the two great all-Russian congresses—the workmen's and soldiers' and the peasants. It showed 252 in favor of such a grant of power; none voting no and 47 refraining from registering their opinion.

The action was the second vote in approval of the plan to grant the provisional cabinet with Premier Kerensky at its head unqualified support in every move which it may make.

The executive committee, however, added to its approval the demand that the eight socialist ministers in the cabinet must hereafter report twice weekly to the workmen's and soldiers' and the peasants' congresses.

The duma progressives today named M. Eftremoff as minister of justice and M. Barochnikoff as minister of public aid. They will be representatives of that party on the coalition cabinet.

BY WILLIAM G. SHEPHERD (United Press Staff Correspondent)  
PETROGRAD, July 24.—Russia will shoot down as traitors the mutineers in her armies and the German spies in her cities.

Clothed with "unlimited powers," the new peoples' cabinet was prepared today to invoke measures of bloodshed to stop the rout of the southeast army and to clean out the nests of German provocateurs scattered throughout the nation. Premier Kerensky, arriving at the front today, was expected to order loyal troops, without mercy, to shoot down such of their fellow soldiers who yielded to German propaganda and started the mutiny.

The rigorous policy of repression of traitors and of German sympathizers is the people's own plan. The all-Russian workmen's and soldiers' and peasants' congresses formally approve it. A proclamation declaring all who disobey the provisional government's battle orders "will be regarded as traitors and cowards, and shown no mercy" was issued today.

Petrograd is hoping that Kerensky will again perform a miracle at the front. With Tarnopol gone and the Teutonic armies pushing forward on a front of close to forty miles, the whole of the great Russian line as far north as Pinsk is menaced. Turning of the Russian flank may be attempted. To avert a disaster, the Russian troops must be reformed, the malcontents weeded out or shot and a firm stand made.

Not alone on the front is the new policy of extermination of undesirable, of traitors and pro-Germans to be carried out. Today in Petrograd strong forces of stories and special agencies began a systematic uprooting of the German spy system as well as a sorting out of all suspicious troops. The first machine gun regiment was disarmed. Four hundred machine guns and truckloads of military supplies were seized. The regiment itself marched to Winter Palace Square and formally surrendered. It was transferred to new barracks and will shortly be sent to the front. Parts of this regiment were among those who participated in last week's rioting in Petrograd.

The existence of a huge German plot to overthrow the new democracy by a counter revolution was definitely proved today in wholesale arrests in

[CONTINUED ON PAGE 4]

# SCHOOL HEADS RECOMMEND NIGHT SCHOOL BE STARTED AGAIN HERE

## SPLENDID WORK ACCOMPLISHED IN LAST YEAR

Cranston Favors Mex. School and Establishment of Public Playgrounds

SCHOOL NURSE PROVES OF PRACTICAL VALUE

Review of Year's Activities Is Full of Interest to Santa Anans

City School Superintendent J. A. Cranston's annual report to the Santa Ana Board of Education, in brief:

Recommends erection of four-room building for Mexican children.

Assembling of sixth grades at Washington building has worked out successfully.

School nurse has proven of great value to the schools.

Psychological survey of schools to be conducted this year to be of interest and value.

At least one good public playground should be established in Santa Ana. Value of such an institution is indicated.

Splendid work has been done by the P. T. A.'s of the city.

Principal D. K. Hammond of the Santa Ana High School, in brief:

Course of study has been enlarged to make the high school in truth a Polytechnic high school.

Last year the average daily attendance was 718.

More and better work has been done during the year, which was marked by splendid scholarship records.

Intelligent initiative marked student activities.

Increased interest and enthusiasm was shown in high school athletics.

Interest in dramatics caused the institution of new course.

It is planned to combine military training with physical training the coming year.

Attention was paid to food production.

Principal pleased with teaching force. Teacher librarian to be instituted.

Consultation work with students to be made of greater help.

Organizations are handicapped because they have no place large enough for meetings.

Recommends opening of night school. Cost would not exceed \$1750.

Recommends appointment of W. M. Clayton as vice-principal and of Miss Kate Rea as vice-principal for girls.

In the annual reports of City School Superintendent J. A. Cranston and D. K. Hammond, principal of the Santa Ana High School, it is recommended that next year a night school be conducted at the high school.

A night school was instituted a year and a half ago, and was conducted successfully for several weeks. It had to be abandoned for lack of funds.

Superintendent Cranston strongly recommends the erection of a four-room building for Mexican children, and declares that it not only would relieve crowded conditions in one or more of the schools but would provide better opportunities for advancement for the Mexican children.

The report of the superintendent and of the high school principal are printed herewith. The report of the principal was one of several department reports submitted to the Santa Ana Board of Education last night by City Superintendent Cranston. Those not printed today will be printed tomorrow.

Superintendent's Report to the Board of Education

Gentlemen:

I have the honor to submit my eleventh annual report for the Santa Ana City schools ending June 30, 1917.

My last annual report dwelt at some length upon the present organization of our school system from the kindergarten to the junior college, therefore, a repetition would seem unnecessary in this report.

The erection, one year ago, of a kindergarten building on the Fifth street

## Financial Report Made By Secretary Andrews Shows School Expenses

Santa Ana, Cal., July 17, 1917.  
To the Board of Education, Santa Ana City Schools:  
I, herewith, respectfully submit my report of receipts and expenditures for the year ending June 30, 1917, together with a statement of the bonded indebtedness of the Santa Ana City School District to the close of the school year ending June 30, 1917.

FINANCIAL STATEMENT—KINDERGARTEN		
Receipts 1916-1917		
Balance on hand July 1, 1916		\$ 1,961.65
Receipts from local tax for maintenance	\$ 5,976.67	
Receipts from local tax for building	776.90	
Refunds	19.50	
Total receipts		\$ 6,773.07
Total expenditures		\$ 8,734.72

Expenditures		
Amount paid for teachers' salaries	\$ 5,780.00	
Amount paid for janitors' salaries	785.00	
Supplies	384.53	
Buildings, sites, furniture	834.67	
Library books	25.32	
Apparatus	19.25	
Total expenditures	\$ 7,828.77	
Balance on hand July 1, 1917	905.95	
		\$ 8,734.72

ELEMENTARY SCHOOLS		
Receipts 1916-1917		
Balance on hand July 1, 1916		\$ 5,287.38
Amount received from state apportionments	\$27,026.00	
Amount received from County apportionments	30,817.00	
Amount received from Special apportionments	20,154.53	
Amount received from Miscellaneous sources	547.22	
Total receipts		\$78,544.75
Total expenditures		\$83,832.13

Expenditures		
*Teachers' Salaries	\$74,054.68	
Supplies	3,123.29	
Fuel	879.26	
Light and Power	339.71	
Laundry	61.47	
Printing	221.50	
Drayage	104.87	
Telephone	144.90	
Water	399.50	
Insurance	579.01	
Books, Library	950.70	
Repairs and Improvements	2,343.47	
Total expenditures	\$83,262.36	
Balance on hand July 1, 1917	569.77	
		\$83,832.13

\*Includes \$9,337.00 of 1915-1916 salaries which were paid on the twelve months' plan; also, includes janitors' and officers' salaries.

HIGH SCHOOL		
Receipts		
Balance on hand July 1, 1916		\$ 5,168.73
Amount received from state	8,275.62	
Amount received from county	48,806.67	
Amount received from special or city	26,872.70	
Amount received from tuition	130.00	
Refunds	88.31	
Total receipts		\$89,242.03
Overdraft July 1, 1917	3,228.24	
		\$92,570.27

Expenditures		
Salaries, teachers and officers	\$59,568.51	
Salaries janitors and laborers	4,101.62	
Supplies, general	2,700.86	
Supplies, janitors	272.39	
Paper towels	265.53	
Laundry	21.00	
Fuel	401.28	
Light and power	471.28	
Water	304.80	
Telephone	120.63	
Printing	297.63	
Library	1,322.08	
Drayage	199.82	
Repairs	1,259.79	
Grounds	1,092.81	
Equipment	3,265.01	
*Transportation	6,321.95	
Insurance	1,534.78	
New Shop	8,346.75	
Miscellaneous	701.75	
Total expenditures		\$92,570.27

BOND ISSUE STATISTICS  
Grammar School Bonds

June 1, 1909, 4 1/2 per cent, \$1000. Last bond payable 1934. Amount of issue, \$50,000. Outstanding \$34,000.

January 1, 1912, 5 per cent, \$1000. Last bond payable 1937. Amount of issue, \$25,000. Outstanding \$20,000.

High School

June 1, 1909, 4 1/2 per cent, \$1000. Last bond payable 1934. Amount of issue, \$25,000. Outstanding \$17,000.

January 1, 1912, 5 per cent, \$1000. Last bond payable 1952. Amount of issue, \$200,000. Outstanding, \$175,000.

Total outstanding bonded indebtedness Santa Ana City School District, \$246,000.

Respectfully submitted, F. L. ANDREWS, Secretary Board of Education.

school grounds relieved the congested condition of the McKinley kindergarten, but the increased attendance in the Roosevelt and Lincoln kindergartens during the past year emphasizes the need of another kindergarten on the East side.

In this connection, I wish to call attention to the congested condition in the grades of the same buildings, necessitating, in the case of the Lincoln school, the use of the library and office for class rooms.

For Mexican School

To relieve this condition, I would strongly urge the erection of a four-room building so located as to be easy of access to the children of the Mexican homes on the East side, and that this building be used, exclusively for Mexican children of kindergarten and the first three grades' age.

Past experience has emphasized the value and importance of segregating Mexican children who are unable to speak or understand the English language, during their attendance in the kindergarten and first three years. More attention and work better suited

to their immediate needs can be given such children when thus segregated than when they are assembled in the same room with American children, and this plan also, works to the better advantage of the American children for both classes are seriously handicapped in their work when instruction is attempted to both classes in the same room.

Works Successfully

The plan, adopted a year ago, of assembling all sixth-grade pupils at the Washington building has proven so universally satisfactory that I would strongly recommend the plan be continued.

This plan, not only relieved in a measure, the congested conditions in some of our elementary schools, but it afforded an opportunity for the teachers in teaching one subject, to become more expert in their particular line of work, and not only was better instruction given, but such subjects as history, science, music and drawing, heretofore more or less neglected on account of lack of time or inability of the teacher to adapt herself to so many subjects daily, are now receiving their proportionate attention.

Furthermore, the plan of housing sixth, seventh and eighth grade pupils apart from pupils of the kindergarten and primary ages is to be commended in that it affords more freedom for each on the playground, simplifies discipline and makes it possible to adapt training in morals and manners to the age of the child.

School Nurse

The public schools of today have far outgrown the notion that their sole purpose is to develop the intellectual powers of the young. The moral, physical and social sides of life are fully as important as the intellectual and the public schools furnish the best

organized means of promoting their development. Not that children in school need this kind of attention, because of their attendance at school, on the contrary, most children are in better surroundings at school than at home—but because of the fact that it gives an organized and concerted plan by which their physical well-being may be cared for.

While teachers, as a rule, are qualified to attend to the general hygienic conditions of their rooms and pupils, such as cleanliness, exercise, pure air and proper light, and to give some useful advice as to the care of the teeth, eyes, digestive and respiratory organs, yet they cannot be expected to give expert advice in these matters.

Parents, themselves, are often ignorant of physical defects in their children, and often quite indifferent as to the advice given them in these matters. Hence the value and importance of the work of a school nurse, who not only possesses expert knowledge in these matters, but who is clothed with authority to see that her advice is followed.

School Survey

The plan of making a psychological survey of our schools has already had your approval. We are looking forward to this survey with great interest, believing that it will prove to be of far reaching importance in assisting teachers and principals in solving many school problems that, heretofore, have seemed impossible for the lack of expert knowledge.

Dr. Williams, director of research work in the Whittier State school, who will have charge of the work, has outlined the following aims to be pursued in making the survey:

1. An account of the extent of retardation, elimination and acceleration in the schools.

2. An estimate of the proportion of children who are exceptional, classified in the following groups:

1. Feeble-minded.

2. Backward.

3. Superior.

4. Potentially delinquent.

3. An inquiry into the problem of racial differences, with special reference to colored and Mexican children.

Playgrounds

The need of, at least one good public playground, centrally located, and properly supervised, has long been felt in our city.

It is hardly necessary to dwell at length on the benefits to be derived from a well-equipped and supervised public playground. One only need visit one of the many public playgrounds of Los Angeles and witness the hundreds of children enjoying the various means of recreation and amusement to fully appreciate their value in keeping children off the street, and away from the more secluded places in our cities, which so often undermine both health and morals.

With our ideal climatic conditions, there is seldom a day in the year that children might not spend from one to several hours in the open air, if suitable places for recreation were provided. During the past six years, the school department has done much to improve conditions in this respect, so far as the schools are concerned, but none of the school grounds is large enough to serve as a general recreation center.

## REPORTS OF SCHOOL PROGRESS ARE MADE BY SCHOOL HEADS

[CONTINUED FROM PAGE 2]

tion was organized to meet the needs of the Mexican children of this school. Previous to the past year, the Mexican mothers of this school had organized as a branch of the regular P. T. A. of the Roosevelt, but they are now organized as an independent association. The mothers of this association have shown a marked interest in the work of the other associations and in listening to talks on "Child Welfare." Evening meetings have been held for the fathers as well as mothers.

### Splendid Work

Space will not permit an account of the many valuable lines of work pursued by each association, but two or three extracts from reports will suffice to indicate some of the lines of P. T. A. work the past year.

"Our children of the Roosevelt school gave pennies and nickles to be used for needy children in our school. We bought three pairs of shoes with this money and the mothers contributed clothing. Have had a P. T. A. tea once a month since February, which has helped us to become better acquainted and more interested in our work. Have made two quilts at our 'teas' which were given to two needy mothers in our association. We gave a Christmas treat to the three hundred and sixty-five children of our school and voted to make it an annual affair."

"The Emergency committee of the McKinley school has called for clothing several times and the mothers have very generously responded. With the earnest and efficient co-operation of our school nurse, many families in our district have been provided with clothing and otherwise helped. Pennies were also collected by the children and five dollars was obtained to give to the Seaside Home to buy shoes for the orphan children there."

I have given quite a little space in this report to the work of the P. T. A. in Santa Ana in order that those interested in this work may know something of the nature of the work that is being done in our various associations, and that those who heretofore have shown no interest in the work, may realize some of the opportunities of such an organization, become interested and lend a hand in doing things worth while for our own boys and girls and our own people.

Following are the reports of the high school principal and department heads:

J. A. CRANSTON,  
City Superintendent.

The following is the annual report of D. K. Hammond, principal of the high school:

### PRINCIPAL'S REPORT

To the Superintendent:

Supplementing the reports of the heads of departments, I wish to submit a few facts and figures relative to some special things that have been accomplished in the high school during the past year, with some information as to what is proposed for next year and some recommendations.

**Course of Study and Teachers**  
The year, as a whole, has been one of satisfactory progress. With the completion of the new shop building, the school has become a polytechnic school in fact, as well as in name. All departments now possess good and satisfactory equipment in so far as they have been developed.

**BELL-ANS**

Peal & Drake, Props.  
111 East Fourth St. Phone 195.

The course of study has been broad, especially along the mechanical lines and now, offers a wide range of opportunity. The teaching force has been increased to meet the demands for greater variety and more advanced work along special lines.

There are, now, forty-five teachers, including two part-time teachers and the principal in the High School and Junior College; the number of pupils per teacher being 20.6, somewhat smaller than that of the average California high school, which is 22.

### Enrollment and Attendance

During the past year there have been enrolled 377 boys and 445 girls, making a total of 822, as compared with 869 the previous year. The decrease in enrollment was due largely to the fact that other high schools of the county have put on automobile buses to transport pupils from districts where young people formerly came to Santa Ana via the Pacific Electric. The average daily attendance for the year, however, has been 718, or only 8 less than the previous year. This year's graduating class numbered 122, or 2 less than last year, which was the largest in the history of our school.

### Scholarship

The application and progress of the pupils in the High School during the year has been commendable.

Honor certificates were issued to 20 students who earned the highest possible grade in all four of their subjects. More and better work has been done by all, the percentage of failures in all subjects being reduced from 8 1/2 to 6 per cent, yet the standard has not been lowered. Supervised study is largely responsible for this reduction.

Our past experience has shown that more than half the failures are due to the fact that the pupils do not know how to study. Supervised study, under which a part of the recitation time is given over to study under the supervision of the teacher, emphasizes the learner's view point and aims to make the pupil more independent in his study. The teachers teach individuals more and subjects less.

The so-called first aid committee, whose business has been to investigate whenever a student is reported as not doing satisfactory work in any subject has made supervised study more effective in maintaining a high standard of scholarship. By reducing the number of "repeaters," supervised study amply justifies its slight additional cost. Supervised study coupled with the extension of courses has been the cause of an increased interest on the part of the pupils in their work, and in general school activities. Punctuality and attendance have been materially improved.

**Student Activities**  
From the standpoint of student activities, the year has been more successful than usual. The students have displayed greater interest and more intelligent initiative in student body government than ever before.

Beginning with the second semester, a new constitution establishing a commission form of government was adopted, which makes the managers of the various activities directly responsible to a commissioner.

Officers have been provided for the student body officials, the Generator staff and the second-hand book store, which now has ample room to conduct its business amounting to over two hundred dollars annually.

### Athletics

There has been a marked improvement in the interest taken in all branches of athletics which have been kept unusually free from objectionable features. More students have come out for the teams and contests have been well attended. The students have shown themselves to be modest winners and good losers. Especially noteworthy was the interest shown in tennis. The County Championship for both boys and girls was won by Santa Ana.

It can justly be said that never in past years has there been greater enthusiasm in debating and oratory than there has been this year. In the Orange County Debating League, the school won the Davis Cup and has to win it but once more before it will come into permanent possession of it. In the County Forensic contest, Santa Ana won the school medal, two first places, one in the senior oratory contest and the other in the freshman declamation contest and one second place.

**Dramatic Department**  
The dramatic productions of the year have been up to the usual high standard. Ever since classes in dramatics were started four years ago, this department has been an increasingly strong feature in school affairs.

The class work consists of a study of dramatic technique, the history and development of the drama and some applied work, and aims to open to the student a new field of literary appreciation. A study of some thirty worth while plays is made. Last year the class was the largest ever, numbering thirty-one.

So much interest has been shown in the subject that a course in applied drama will be offered in the Junior college next year, so that students may continue to prepare men and women for occupational acting.

This year's senior play, "The Lion and the Mouse," will be long remembered. The art department is planning to co-operate and to paint a set of stage scenery for the use of the dramatics department, thus saving the rental price, which is quite an item every year.

**Musical Organization**  
The student organizations in the music department have done their "bit" in upholding the honor standard of the school. Excellent work has been done by the girls' and boys' Glee clubs and the orchestra has had a very busy year furnishing music for assemblies and various dramatic productions, including the Junior college Pageant, "The Princesses." The department has always been ready to respond to the call for musical numbers from the various civic and religious organizations of the city.

Every first year student now has choral music once a week. Special attention was given patriotic songs and the "Star Spangled Banner" was memorized last week. The class in the History of Music gave two programs of music of the famous composers—

one devoted to MacDowell's works. The class in harmony gave one program of original compositions and the junior and senior class songs were composed by its members.

### Assemblies

The weekly assembly held at Clune's theater has shown an improvement in tone. A high order of educational entertainment from outside and inside the school has been provided and lecturers and entertainers of note have been secured.

### Military Training

In response to a demand on the part of the students, military training was given the second semester, under the direction of teachers. Nearly 200 were enrolled. Owing to the impossibility of obtaining rifles and qualifying under the state law, we are planning to combine military training next year with physical education, which is made compulsory by the new physical education law. Every girl, too, next year, will be required to spend two hours a week in physical exercise.

### Food Productions

A special effort has been made to interest students in increasing the food supply and several have planted crops of various kinds at home. The school gardener has given advice to all as to what and how to plant. From data gathered from the State Workers' reserve, it was learned that more than ninety per cent of the boys expect to be employed on ranches or in canneries this summer.

### Teachers

It gives me satisfaction to report that the teachers have been most faithful and loyal in their work during the year and have shown a fine spirit of co-operation in carrying out the general policy and course of study of the school.

It is my hope that next year teachers will be given time for the many duties incumbent upon them outside of regular class work. They should not be expected to carry written work home at night to correct. Their evenings should be free for rest and relaxation and participation in the social, civic and religious life of the community. It is only fair to pupils and to teachers that time be allowed in the teacher's school day for all regular work that the teacher is called on to do in connection with his classes.

Next year, a teacher librarian will be employed to supervise more effectively the reference work required by the various departments of the school. This will relieve the teachers of English and History somewhat and will insure a more intelligent use of the fifty-one hundred volumes in the library.

### Guidance Work

Owing to the lack of teachers, the work of consulting with students regarding their courses in school, college requirements and future vocation was considered limited. Next year the Principal plans to arrange time for consultation with every senior and all others wishing advice.

It is hoped, too, that one of the teachers who is making a special study of vocational psychology will be able to devote a part of her time to the intermediate school pupils, in order that they may choose their high school course more wisely. Some pupils have been tested this year with the Binet-Simon test with interest and helpful results.

### Student Organization

The year has been eminently successful in the organizing and development of the Girls' league and other clubs and societies for girls. It is hoped that some of the work will be effected among the boys next year. The greatest drawback to work of this kind with the boys, is a lack of a suitable meeting place. The school has no gymnasium and no room large enough to hold all the boys or all the girls. One of the greatest needs in our city is a Y. M. C. A. building for the boys.

### Senior Gift

Especially mention should be made of the gift of the Senior class this year to the school at an expense of about one hundred and fifty dollars. They had constructed an artistic fountain which harmonizes with the surrounding in front of the east building. This is certainly a noble example of class and school spirit.

### Property Supervisor

The supervisor of school athletic properties and grounds has effected a considerable saving to the Board of Education and student body as is shown by this report. I recommend that this work be continued.

### Evening School

I would recommend the re-opening of the evening school which was started three years ago.

Believe there is a genuine need for evening work in the following subjects: automobile work, wood work, mechanical drawing, arithmetic, English for foreigners, practical English, bookkeeping, shorthand, typewriting, Spanish, cooking and first aid.

Two evenings of instruction weekly could be given for thirty weeks at a cost of \$1650. Other expenses would be for lights in the shop buildings.

Inasmuch as the new law provides for the money for evening school attendance, no matter what the length of the term, the post to the district would be slight and might be practically nothing, if the attendance were sufficiently large. I think that an allowance of seventeen hundred and fifty dollars in the budget would be ample to handle this work next year, if it is deemed expedient to undertake the matter at the present time. I feel sure that there would be no difficulty in securing teachers who would be legally qualified and glad to do evening work.

### Vice-Principal

I wish to recommend the appointment of Mr. W. M. Clayton as Vice-principal to assist the Principal in the performance of his duties and to be responsible for the school in his absence, and also, the re-appointment of Miss Kate Rea as Vice-principal for girls.

Respectfully submitted  
D. K. HAMMOND,  
Principal.

## WOMEN HINT REVOLT AT KNITTING FOR NAVY

WASHINGTON, July 24.—An organized uprising by the women of the nation against knitting mufflers, mittens etc., for the navy seems to be fomenting. "Why are not these garments part of the equipment furnished by the government?" ask the women. "Why is slow hand knitting resorted to in such a time of immediate need?"

These are a few of the hundreds of questions women from all parts of the country are firing at the government every day.

## CLAYTON MADE VICE-HEAD OF THE POLY HIGH

Miss Sue Holland Appointed  
to Succeed Walter Hall  
In Mathematics

Following the recommendation of Principal D. K. Hammond of the Santa Ana High School, the Santa Ana board of education last night appointed W. M. Clayton as vice-principal of the high school, and Miss Kate Rea as vice-principal for the girls of the high school.

Since Hammond was appointed principal last February the high school has had no vice-principal to fill the vacancy caused by Hammond's advancement. Clayton has been teaching in Santa Ana for many years. Miss Rea's appointment was to the same position she held successfully last year as head of the girls' activities.

### Makes Appointment

Miss Sue Warren Holland was appointed teacher of mathematics to succeed Walter Hall, resigned to go to San Bernardino. Miss Holland is a graduate of Smith's College, and has been a successful teacher. Last year she was vice-principal of the Lakeside high school, San Diego county.

### Dates Are Fixed

The following is the calendar for the Santa Ana schools for the coming year:

Sept. 18-21—Registration at high school.  
Sept. 24—Schools open.  
Nov. 23—First quarter ends.  
Dec. 15—Christmas vacation starts.  
Dec. 17-21—Teachers' institute.  
Jan. 2—Class work starts again.  
Feb. 8—First semester ends.  
Feb. 11—Second semester starts.  
April 5-15—Easter vacation.  
April 19—Third quarter ends.  
June 21—School year ends.

## BREA'S BUDGET OF NEWS ITEMS

BREA, July 23.—Mr. Cruse has returned from a six weeks' eastern trip and will resume his work in the development department of the Union Oil Company. Mr. Cruse was called to Arkansas to look after some important business and had a little time on the side to enjoy the eastern journey and see the sights.

Harry Baum took a few days' lay-off early last week, and it is said that the popular oil man has a deal on with Dan Cupid. Even the oil men are not immune from the arrows shot by the matchmaker.

Chas. M. Platt, Chas. E. Graham and Fred T. Shores formed a fishing party and headed for Big Bear Lake last week.

W. F. Von Breyman, old-timer here, when the Brea field was young, has returned to the old stamping ground, and is shaking hands with his friends. Mr. Von Breyman left the Brea field several years ago and has been doing development work in the foreign fields of Sumatra.

Dr. George P. Pray of Jackson arrived in Brea and will spend a portion of the summer here. Mr. Pray is a brother of Mrs. Jay C. Sexton, wife of the Brea banker and mayor. Mr. Pray will be shown all the big things about Brea and the oil fields, and will probably be induced to locate here permanently.

Mrs. W. Conover and son Walter have arrived from Titusville, Pa., and will spend the summer here. Mrs. Conover is the mother of Layton S. Conover. Mr. Conover's brother, Walter, intends to remain here permanently.

R. M. Putnam left today on a two weeks' vacation trip. Mr. Putnam and his family will spend the greater part of the time at Long Beach.

Mrs. Edward Garman is spending the week with her mother in Los Angeles. Mrs. Garman took the opportunity to visit in the city while her husband is away looking after some rig-building work at Taft.

### WOMEN TOO AMBITIOUS

—Excessive ambition leads all sorts of women to exert themselves beyond their strength. The girl striving for honors in school, the busy housewife, the shop-girl, the society climber or leader, all overtax their natural powers of endurance. Then come nervous troubles, backaches, headaches, frequently organic troubles, which reduce them almost to despair.

Women suffering thus should first recognize the necessity of putting on the brakes and slowing down. Besides this, to remedy the mischief already done to their health, the best reliance is upon that famous and standard medicine for women's ailments, Lydia E. Pinkham's Vegetable Compound.

### EXAMS PLANNED FOR TELEPHONE EMPLOYEES

LOS ANGELES, July 24.—Promotion by examination throughout the Southern District of the Pacific Telephone and telegraph Company, and for employees of the Southern California Telephone company, has been announced by Superintendent C. F. Mason, who has inaugurated a system of advancement closely following the plan worked out by the United States government for the examination of army officers for promotion.

Mason said yesterday: "This plan provides for a detailed practical examination to be conducted under the direction of district superintendents and wire chiefs."

"Employees engaged in the mechanical and electrical departments of the company are eligible who can show service of one year. Salaries will be

## Guaranteed Tires at Lowest Prices

### Pennsylvania "BAR-o-CIRCLE" Non-Skid Tires, Guaranteed 3500 Miles

To meet a popular demand, we have secured the agency for a low-priced tire with a 3500 mileage guarantee—a tire of stout quality and one that will stand up under severe usage.

### Quality Non-Skid Tires at Popular Prices

The design of the tough black tread is indicated by the name—combination of bar and circle. The special construction puts the thickness and wear resistance where it is most needed.

### Pennsylvania Ebony Tread Non-Skid Tires

Have a black ribbed tread of extra thickness and the same high-grade fabric used in our Vacuum Cup Tires. Guaranteed for 5,000 miles service, per tag on each casing—though selling at a moderate price.

### DAY BY DAY

One need not detract from the vital importance of dreaming dreams and holding visions to guide nations and peoples to greater things and individuals to worthy accomplishments in order to moralize for a moment upon the tremendous value of an every-day faithfulness to the work in hand.

Any man or woman of intelligence can look a long way ahead. With what truthfulness the vision is surrounded, with what practicability it is fenced, with what pitfalls and sloughs of despondency the avenue of the dream is threatened it remains only for those of clear mental power to see and understand and those of determination and resourcefulness to overcome.

But visions are seldom accomplished in a day. The life of the ordinary person—and most of us are not to be classed with the genius—is made up of slow progress. We grow into manhood and womanhood and we grow into greater usefulness by daily doing the small things that come to us to do. The carpenter who makes each bit of workmanship a perfect job develops from a rough carpenter into an expert. The man who merely works in order to draw pay to keep from starving can never pass through the stages of development as rapidly or with the satisfaction of the man who does things well because he realizes that anything worth doing is worth doing well. The one is never satisfied with himself, his wages, his employer, his job or anything else. The other realizes the limitations with which he is surrounded, but he has the courage, the spirit and the common sense to know that the faithful worker will generally become an efficient worker, and efficiency in any line of endeavor today has its reward.

In this country, no man is tied down for a lifetime, through governmental order, to any one position in life. This condition has brought to America workmen from countries of Europe where opportunities do not exist for men born and raised as they were. Here, whatever visions they may have had, those successful in every-day life are those who develop day by day, just as is the right of every free-born American.

The man who attends to his job may or may not earn for his employer more than he is being paid. That factor is of lesser importance in the long run than the question as to whether or not he is schooling himself in the faithfulness of endeavor that will make him a more valuable man in whatever line of work he may undertake, in whatever opportunities life opens up for him.

RED CROSS ACCURACY

Women sewing for the Red Cross have been learning, many of them for the first time, what accuracy means. The woman at home may intend to hem her sheets three inches wide, but if one turns out finished to be two and seven-eighths or three and a quarter wide she just lets that go. It is near enough. And some of them may be stitched close to the edge, and more of them an eighth of an inch back, and some of the stitching may be rather crooked. But if it's not too bad, she calls the article done and passes along to the next job.

Time sometimes may be worth more than fine finish. But too many women acquire a mental attitude of inaccuracy and carelessness. It's too much trouble to finish the job exactly right. And then this attitude works out all over life. It's too much trouble to correct the children's English. Too much trouble to make the child who has slammed the door come back and close it softly to learn how it is done. And the loss of time due to a careless mind is greater than from any other cause.

In the Red Cross women learn that slipshod work of any kind does not pass inspection. The seam to be sewed on the edge must be sewed on the edge. Sewing in an eighth of an inch back might mean the difference between life and death. And the Red Cross takes no chances of that kind. If there must be a space of four inches between the padded parts of a fracture pillow, three and seven-eighths won't do. The work must come out and be done over.

Fussy? Yes. If there are twenty-

five sponges in a package instead of twenty-four, one may be left in a wound. The counts of the surgeon, the nurse and the package must tally. It's life and death business.

It's as easy to form the mental habit of doing work well as ill. And perhaps when we have all acquired it we will no longer let our cities and governments and social conditions be run inaccurately—with their consequent loss of life and health and happiness.

### With Malice Toward None

By Henry James

The Pet Rooster

When a lad, a man now of military age experienced such agony of soul at the spectacle of his pet rooster being utilized as the makins of a pot-pie that he vowed never to kill anything, nor to eat meat. Now this vow bobs up as a reason for claiming exemption and gives the boards some food for thought.

Little did father know, when he wrung the neck of the beautiful bird, that he was laying the foundation of a problem.

There can be little doubt that a man who since youth has refrained from slaughter even of a flea would try to pot the foe only with misgiving and perturbation of mind and stomach.

Army grub also would cause him profound distress. The question in large measure is psychological. Is the stomach the seat of conscience? Or does the mystic faculty lodge in the spleen?

More Hard Luck

General von Falkenhause, governor-general of Belgium, is reported as so ill as to be likely to follow the late von Bissing, the monster who was both his predecessor and inspiration. Really too bad. Falkenhause is another of the "vow" who do merit the facility of dying decently in bed.

The Last Gasp

"Germany must fight to the last gasp," remarks Hollweg. Such fighting is no picnic. It is the purpose of the civilized world to make the painful spectacle as brief as possible.

Ruthlessness

It is said that Danish opinion is that the United States is a ruthless nation. Not so ruthless as Denmark. Look at the sum she touched us for as the price of some little old islands she didn't want.

Musical

According to an impresario, 28.5 of the California population are musicians. He must be ringing in the youths addicted to the ukulele.

Pitiful

Two members of a boat crew at San Francisco were drowned in the attempt to save the life of a drug fiend who had jumped overboard. The drug fiend also was drowned, an incident that lightens the gloom a little.

Marrying on a Bet

A boy of nineteen won a bet of \$5 by marrying a girl, and now, being several years older, wants to get out of the bargain. Marriage, being a sacred institution, and in this instance raised to the nth power by being the object of a wager is nothing that should be sneaked out of, especially as the young man might be tempted to bet again.

I. W. W. Backing

Statements are made freely that the I. W. W. is backed by an alien power. Of course it is almost impossible to know this, but there is one alien power that must be tickled mightily by the way the I. W. W. is acting.

Bridegroom Green

It was said of the son of the late Hetty Green, that before his marriage he had received 9,000 proposals by mail. Who starts such a yarn as that? Col. Green does not need a publicity agent.

In all probability the colonel never received a single proposal. If he did receive any it was from an acquaintance, and not from a stranger. The fact is that women do not have a habit of proposing by mail or otherwise, save in exceptional instances, and any woman of ordinary discretion would have realized the futility of wasting a postage stamp on the son of Hetty.

Not Enough

Joe Tinker, baseball manager, spat in the eye of an umpire whose decision did not please him, and for this the offending manager was fined \$100. In addition he should have been expelled from baseball for all time. Spitting managers do not tend to keep the sport clean.

Cupid's Advice

The official whose duty is the issuing of marriage licenses counsels early marriages. He might have added "the earlier the oftener."

Impugning the Fly

Enlarged pictures of the common fly show it to be a horrid monster. Before getting scared to death at it, however, it is well to reflect that the inhabitant of a crystal drop of water looks just as fierce under the microscope.

Imprudent

Too bad the Kaiser has sold his horses. They might have come in handy to stock a livery stable in some St. Helena.

### CAR STOLEN AT BEACH FOUND AT CROWN CITY

A Buick Six automobile belonging to E. N. Cook of Anaheim and stolen at Huntington Beach Sunday night was recovered last night at Pasadena through the efforts of City Marshal Tinsley of Huntington Beach, Sheriff Jackson and the Orange County Auto Club. Word of the theft of Cook's machine was flashed broadcast and police in all parts of Southern California were on the lookout. The man who stole the car was not apprehended.

## AGE NO BAR TO SUCCESS

Detroit Free Press

The story of the 60-year-old man who recently enrolled in the summer law school at the University of Michigan is capped by that of the man of even greater age—William McK. Brittain—who at the recent commencement of the College of the City of New York received the degree of bachelor of arts and won honors in addition. At Michigan, the mother of a young woman who took the same degree in June had attended lectures regularly through the year. She asked for no credits, was not aiming at a degree, studied for the pure pleasure of achievement. It is a matter of record that a woman nearly 80 matriculated at the University of Wisconsin several years ago. Fifty years ago a woman who desired to enter an advanced school was advised that she was "too old" for the work at 43. Reminding "the head" that Queen Victoria learned Hindustani at a greater age did not win a more favorable answer. That could not happen today.

## CANNING LESSONS

Raspberries may be canned with or without currants, says today's bulletin from the National Emergency Food Garden Commission, which is co-operating with the Register in a campaign for thrift and for the prevention of waste throughout the nation. If currants are used, the proportion should be about three quarts of currants to ten of raspberries.

Gather fruit in shallow baskets or trays to prevent bruising or crushing. Pick over and wash by putting into a colander and pouring cold water over the berries. Pack into hot sterilized jars without blanching and fill up jars with boiling sirup made of one cup sugar dissolved in three cups of water. Adjust tops of jars and partially tighten them, and sterilize for sixteen minutes. Remove jars from boiling water and seal immediately, inverting in place free from draughts to cool.

Raspberry Jelly  
(With Currants)

Pick over and wash in cold water equal quantities of currants and rasp-

berries, place a little crushed fruit in the bottom of an enameled preserving kettle and put in the rest of the berries. Heat slowly and stir frequently. When the fruit is hot, crush and strain through two layers of cheesecloth and then through a flannel bag. Do not use pressure in draining juice from pulp.

Measure juice, place in clean preserving kettle and bring to boil. Set back and skim and then bring to boil again and then add a pint of hot sugar for each pint of juice. Boil for four minutes after sugar is dissolved, then pour into sterilized glasses and set in cool place till firm.

To seal glasses, cut circular pieces of thick paper to fit inside glasses, dip in 95 per cent grain alcohol and place on top of jelly. Pour melted paraffin on top of paper to the thickness of a quarter of an inch. Put on tin covers if available; if not, cut circular pieces of writing paper half an inch larger than glasses and seal around edges with a mixture of the white of an egg and a teaspoonful of water.

## SOME THINGS FOR AMERICA TO CONSIDER

(Written for the United Press.)

By Spencer Wilkinson, Professor of Military History, Oxford University.

### ARTICLE TWO

LONDON, July 6 (by mail).—The officer should be the teacher and the leader of his men. Therefore the rule should be rigidly enforced that for an officer the indispensable qualification is a strong character and a liberal education. He must be a person whom the men will respect, for the private soldier gauges instinctively the spiritual quality of those who are set over him.

The military education of the officer must aim at making him a tactician. All the rest is of slight importance. The routine of the army, its administration, the necessary rudiments of military law are picked up by the officer insensibly in the course of his military life. But unless he starts with clear and sound ideas of the essential points of tactics, of the art of fighting, of making the best of his men's weapons and the ground, he will be hampered throughout his career.

The U. S. government in forming a series of great schools for the tactical instruction of young men seeking to become officers is thereby laying the best foundation for its future army. Neglect of this matter at the beginning cannot possibly be remedied by any subsequent measures.

Napoleon said, "The ideal army would be that in which every officer, according to his rank, should know exactly what he ought to do in any situation in which he might find himself."

In the training of the men it is impossible to exaggerate the importance of good shooting. Prince Hohenzollern, a great Prussian artillery commander of the last generation, was asked what are the three great functions of artillery and replied:

"The first is to hit, the second is to hit, and the third is to hit."

In spite of the immense development of the power of the gun which has marked the 20th century, in spite of the return to hand grenades, bombs and trench mortars, the most deadly weapon is always the bullet—the weapon of the infantry soldier.

For one man who falls to the bayonet, for ten men who fall to the shell,

for their work, but they do not belong to that class and for that reason should not be taken advantage of but receive for their labor a just wage.

A VISITOR.

## The People's Forum

Brief communications will be published under this head, provided they are signed by the author, or the author's name is sent to the Editor as evidence of good faith. However, the Editor shall be the sole judge as to the propriety of publishing any communications, and the Register assumes no responsibility for any views that may be expressed in this column.

Editor Register: After visiting different camps I have wondered why the apricot driers are paying no higher wages to their pitters this year—when the commodities of life cost double and notwithstanding they are assured that the price of the dried fruit will be from 13c to 18c per pound—than they paid in former years when they were uncertain as to price and sometimes sold for less than one-third of what they are assured their product will bring this season. Those to be found in these apricot camps are people who have to work for a living. (It can hardly be termed that when a woman works from ten to twelve hours per day and receives little more than a dollar for her expended energy.) I hope these employers will stop to consider the injustice of all this—will adopt as their motto the ancient one of "Live and let live." We know that these driers made a satisfactory profit in former years when they sold their fruit for five cents a pound or less, else they would not have continued the business from year to year. If the people of this community were the kind that strikers are made of perhaps they would be receiving more

for their work, but they do not belong to that class and for that reason should not be taken advantage of but receive for their labor a just wage.

Real Estate Transfers

(Furnished by the Orange County Title Company.)

Deeds—July 21

W. C. Current et ux to Fred G. Hill—Lots 1 and 12, block 1006, Vista Del Mar tract; \$10.

## SLAVS LOOK TO KERENSKY TO SAVE NATION FROM WRECK BY ANARCHY

[CONTINUED FROM PAGE 1]

the capital. It was German money that incited anarchists last week to treason; it was German agents and provocations at the front who led the mutiny in the army.

The German plot for a counter revolution must have been forming for months. Millions have been spent in hatching the scheme. Among several hundred anarchists and the revolutionaries of scant means and no income who were seized today the authorities found large sums of money. None had less than 300 roubles (\$150) and many carried several thousand.

But from the shock of this German perfidy, Premier Kerensky emerged today stronger than ever. He is now clothed with all the powers of an absolute ruler—a mark of universal public confidence.

"We are glad the storm broke so soon," declared Mrs. Emmeline Parkhurst, England's suffragette leader, today. "We had known it was gathering for weeks. We knew the Germans were at work, but how or where their machinations would break out, no one knew."

"As an American, you can see from this situation what we had to fight against in England. God only knows how many English lives were lost because England permitted the Germans to remain working in our midst. You in America will find sooner or later—perhaps at terrible cost—that you must look up every German sympathizer."

Even with the new policy of running down all agitators and political fanatics, there is a comprehensive, systematic campaign of acquisition of passports by pickpocketing. Victims apparently are carefully selected beforehand. There were twenty arrests of spies bearing forged or altered passports stolen in this manner at the frontier on Saturday alone. Search of the apartments of suspected German agents here has revealed great batches of other credentials.

With the army sowed with German agents working to achieve mutiny, Petrograd was greatly relieved today by report of M. Lebedieff, Kerensky's assistant in charge of the navy, declaring that Russia's sailors of the fleet were completely loyal. Lebedieff has just returned from a visit to the naval bases and declared he had been assured by every ship of the men's loyalty to Kerensky.

LADIES' TAILORING

Special reduced prices until Aug. 1. Have your suit tailored to your individual figure. Select materials and style wanted and have it made by an experienced tailor. Perfect fit and correct style offset the slight difference in cost between a tailor-made and an ill-fitting ready-made garment. Chas. Land, 109 East Third St. Phone 1350.

When eyes hurt, phone Dr. Hancock, Pac. 277W. for an appointment.

## INTERESTING NUPTIALS

**Lieut. C. D. Swanner and Miss Clara Eloise Loerch Wedded Here Today**

A wedding of much interest was solemnized here this morning at ten o'clock at the home of the bride's father, Dr. K. A. Loerch, when Miss Clara Eloise Loerch of Brooklyn, N. Y. became the winsome bride of Second Lieutenant Charles Douglas Swanner of Company L, N. G. C.

Lieut. Swanner was given an unexpected furlough and not knowing when he would be free again, he telegraphed Miss Loerch and asked her to cross the continent to meet him here. She did so, arriving here last night.

The marriage ceremony of the First Presbyterian church was read by Rev. J. A. Stevenson, the young people being unattended.

The home was prettily decked with yellow and white crape being artistically utilized. The bride was beautiful in her filmy gown of white silk net with a silk overdress and carried an arm bouquet of white roses and fern.

The groom was handsome in his khaki-colored uniform.

Immediately following the congratulations, Lieut. and Mrs. Swanner left for a wedding trip to an unknown destination, followed by the hearty good wishes of their hosts of friends.

The bride and groom both are graduates of the Santa Ana High School. Mrs. Swanner graduating last year and returning to her New York home. Lieut. Swanner also graduated from U. S. C. law department and at the time of leaving for somewhere in California with Company L he was deputy district attorney.

Those witnessing the ceremony were Dr. K. A. Loerch and family, John I. Swanner and family, Miss Jennie Swanner of Los Angeles, Mr. and Mrs. J. P. Williams, Mrs. E. B. Trago and Mrs. Tom Whittier.

To Sew for Red Cross  
Unit No. 10 of the Ebell will meet at the Armory for Red Cross work Wednesday, July 25, at 10 a. m.

## Kansas White Corn Meal

Sanitary White Shop.  
117 1/2 E. Fourth St. Sunset 1081.

## USE EVERY DROP OF MILK

Don't throw away left-over skim milk, says the United States Department of Agriculture. It is a nutritious food and every drop of it should be used. One way to utilize it is to make milk-vegetable soups.

**Milk-Vegetable Soups**  
To each 2 cupsful of milk use 1 tablespoonful of flour, 1 tablespoonful of butter, two-thirds of a cupful of a thoroughly cooked vegetable, finely chopped, mashed or put through a sieve, and salt to taste. Thicken the milk with the flour as for milk gravy and add the other ingredients.

Practically any vegetable except tomatoes may be used with the other ingredients as stated. If tomatoes are used a little soda should be added to them to prevent the milk from curdling.

**Spent Vacation at Beach**  
Miss Leila Ritner has returned from a pleasant vacation spent at Laguna Beach with her cousins, Mr. and Mrs. T. F. Breckenridge of Los Angeles.

Miss Ritner was hostess at a pleasant house party over the past week-end, her guests being her mother, Mrs. Ritner, and sister, Miss Katharine Ritner; Mrs. Edna Kyle, Miss Matilda McNair of Los Angeles, and Earl Fraser of Santa Ana.

**Tustin W. C. T. U.**  
Every member is asked to be present at a called meeting of the Tustin W. C. T. U. to be held at the home of the president, Mrs. S. M. Brown, on Thursday at 1:30 p. m.

A special call has come for the California W. C. T. U. for 5000 navy comfort bags and also a certain kind of bandage.

## PERSONALS

Mr. and Mrs. O. H. Ueberham have returned from a two weeks' vacation spent at Santa Barbara and Catalina. Mrs. Florence Faust of 903 Garfield had as her guests on Sunday Miss Myrtle Perry of Long Beach and Mrs. F. Sears and daughter Miss Marjorie of Orange. The visitors were invited to meet Mrs. Faust's sister, Miss Katherine Culp of Lebanon, Pa.

Judge and Mrs. W. H. Thomas were visitors in Pasadena Saturday afternoon and Sunday.

Mr. and Mrs. Fred Towner and family and Mr. and Mrs. Bert Yost and family left this afternoon for a motor trip to Lake Tahoe, Yosemite, Sacramento and other northern points. They expect to be away a month.

Mr. and Mrs. E. B. Smith and Mr. and Mrs. G. E. Norton returned Saturday afternoon from a three weeks' trip to Yosemite Valley. Mr. and Mrs. J. W. Blee and Mr. and Mrs. U. D. Palmer, who were also in the party, are expected home tomorrow. No accidents occurred to mar the pleasure of the journey.

Rev. E. M. Hulet, wife and daughter, Florence, of Whittier, are visiting at the home of M. M. and E. G. Holmes. The visitors are old Minnesota friends of the Holmes'. Rev. Hulet being pastor of the First Baptist Church at St. Paul, Minn. He is now pastor of the church at Whittier.

**Head, Eyes, Neck—Ache?**  
Probable eye strain.

Do you know that the sugar, chocolate, corn syrup, butter and vegetable colorings are healthful and pure?

Do you know that a pound of our candy has more nutritive qualities than a pound of either bread or meat?

**CHERRY BLOSSOM**

## BEACH PICNIC

**Force At James Confectionery Takt Jaunt After Hours, Have Wiener Bake**

A company composed of the force at James' confectionery, took a jaunt last evening after working hours to Rocky Point where a jolly wiener and marshmallow bake was enjoyed, many other good things to eat being on the menu.

About a big bonfire singing and story telling were indulged in, the following making up the party:

Mr. and Mrs. Finis Anderson, Mr. and Mrs. W. H. James, and Juanita James, Misses Ruth Southwell, Mildred Dickson, Minnie Kosy, Mr. Artie Walton, Kenneth Coulson and Billie Freeman.

**Picnic At Rocky Point**  
Mr. and Mrs. Guy C. Richards and son Newton; Mr. and Mrs. James Bergman and family; Mr. and Mrs. Fred Cole, Mr. and Mrs. Hardy Mayer, Mr. and Mrs. Clyde Warshaw, Mr. and Mrs. Alonzo Bath, Mr. and Mrs. Fred Avas, Mr. and Mrs. Ralph Paul, Mr. and Mrs. Sam Barker, Mrs. S. R. Obar, Mrs. Robertson, Mrs. Alma Kirkhove of Peoria, Illinois; Mr. and Mrs. Schochard of Balboa made up a jolly party, which spent the day at Rocky Point Sunday.

**Birthday Celebration**  
A very pleasant family dinner was served at 1 o'clock yesterday at the home of Mr. and Mrs. James Alexander, the affair being in honor of Mr. Alexander's birthday. The table was centered with spicy carnations in pink and white, and a birthday cake was a feature.

Besides the hosts and their sons, there were present Mr. Alexander's parents, Mr. and Mrs. T. J. Alexander, and sister, Miss Josephine Alexander.

**Wedding Invitations**  
Friends of Mr. and Mrs. William I. Cledenon of Los Angeles have received invitations for the marriage of their daughter, Miss Lida Kathleen, to Harry Waldron Mitchell, on Tuesday, August 14, at 8:30 p. m., at the Church of the Messiah, Los Angeles. The Cledenons were former residents of this city.

**THE WEATHER**  
Fair tonight and Wednesday; west-erly winds.

July 23—Maximum, 84; minimum, 64.

**S. A. V. I. CO. BULLETIN**

**WATER BULLETIN**  
Today water is in ditches A to the Newport Road, A1, A2, CC, AA, D, B and B1.

Tomorrow it will be in F.

**MARRIAGE LICENSES**

**IN SANTA ANA, ON JULY 23**  
George L. Gooch, 39, Rivera, and Annie B. Knight, 35, Los Angeles.  
Santos Gonzales, 40, and Mary Romero, 39, both of Orange.

Bennie F. Higgins, 25, and Catherine E. Spencer, 18, both of Santa Ana.  
Cyril A. Parker, 21, Santa Ana, and Jessie E. Price, 22, Irvine.

Manuel Rios, 21, and Ruby Gonzales, 20, both of Santa Ana.  
Percy H. Johnston, 30, San Dimas, and Emily K. Lambert, 32, Long Beach.

James F. Herwick, 59, Balboa, and Rose Leffingwell, 31, Buena Park.  
Henry Balk, 21, and Manuela Brady, 18, both of Los Angeles.

William E. Lindsay, 20, Taft, and Florence E. Sweet, 18, Santa Ana.  
Anastasio Lopez, 21, Anaheim, and Inez Parga, 19, Santa Ana.

**DEATHS**

**FISH**—At Garden Grove, Cal., July 23, 1917, Mrs. Maria Fish, aged 82 years, at the home of George Roth.

Funeral services will be held July 25, at 2:30 p. m., at Smith & Tutill's chapel. The decedent was a sister of Mrs. Julia Garrison of Santa Ana, Mrs. Affa Wickert of Murietta, Charles Stevens of Pasadena, Anson Stevens and Mrs. George Roth of Garden Grove.

Mrs. Fish had lived in California forty-two years.

**NUSBAUMER**—In Santa Ana, Cal., July 24, 1917, Joseph Nusbaumer, aged 70 years, at his home southwest of town.

Funeral services will be held Thursday, July 26, at 10 a. m., at Smith & Tutill's chapel. The decedent had lived here since 1882.

Fantasia—On Old Kentucky Home With Variations for all instruments

Finale—Star Spangled Banner.

## IN THE JUSTICE COURT

### BURGLARY CHARGES ARE FILED AGAINST CHICKEN THIEVES

**They Went Inside the Building, and That Changes the Crime to a Felony**

About the stiffest bump ever given chicken thieves in this county awaits Joe De Leon and Perfecto Trojia, two Los Angeles Mexicans who are credited with numerous raids on poultry houses in the Orangehorpe and Fullerton sections. Instead of facing petty larceny charges, they are up against burglary charges.

It develops that in stealing chickens from L. A. Fordham, Mrs. W. R. Ritchie and M. Durnbaugh of Fullerton they entered chicken houses. Under the law, entry in a building for the purpose of theft constitutes burglary. Justice Cox in talking to the witnesses found that the Mexicans were burglars, not mere chicken thieves, and complaints charging the felony offense were drawn. Examinations were set for Aug. 1.

**Pleads Not Guilty**  
Claude Russey, arrested on a peace disturbance charge brought by his mother-in-law, Mrs. Alice M. Woodward, pleaded not guilty, and his trial was set for July 30.

**For Potato Plants**  
R. E. Franke of Santa Ana is asking that he be given judgment for \$198.75 against Reginald Barker. He states that Barker agreed to buy 40,000 sweet potato plants from him, and acting upon that agreement Franke raised the plants. Barker did not take them. Franke sold as many of the plants as he could, but was unable to dispose of a large portion. He is suing for his loss. Clyde Bishop is his attorney.

**Perjury in License**  
A warrant has been issued for the arrest of Leonard Provenzano, a chauffeur, who gave his residence at Seal Beach, charging that in securing a license to wed Gladys Sorman of Los Angeles on July 16 he committed perjury in that he gave her age as 21 when she was but 17.

**POMONA BOY IS GOING TO JOIN CO. L HERE**

Perry G. Briney, son of P. L. Briney of Santa Ana, is expected to arrive here tomorrow for enlistment in Co. L. He was drawn for the first army, but prefers joining the Santa Ana company to any assignment that might follow his drafting. He has been a student at U. S. C.

Piano, voice and harmony pupils accepted. Frequent recitals. 1907 Dush. 401R.

Reliable Gas Ranges, underpriced. Chandler's, 510-516 North Main St.

## BEACH TROUBLES NOT WET AND DRY FIGHT SAYS ORD

**Seal Beach Mayor Discusses Political Situation Which Has Developed There**

With quo warranto proceedings started to oust J. P. Transue from the city council and a petition out to recall Trustee Pfaffenberger, Seal Beach is again in turmoil, the population being divided on the two issues involved in the city row. Transue was elected to fill a vacancy in the council created by the resignation of Trustee Metcalf, and it is alleged that his election was irregular. The recall petition against Pfaffenberger alleges that he had been arbitrary in his action to the detriment of the city.

Mayor Ord was in the city from Seal Beach today, and he declares emphatically that the situation which has developed there is the result of a wet and dry fight.

The attempt to place two of the present councilmen on the retired list is the outgrowth of the troubles started when an ordinance granting the cafes permission to remain open until 2 o'clock in the morning was brought up. The ordinance was passed and is now in effect.

"The recall against Pfaffenberger is the result of the determination of the better element of Seal Beach to rid the council of a trustee who for the last three months has been an obstructionist, refusing to attend meetings of the board, and sending to newspapers slanderous articles about the city," said Mayor Ord.

"Former Mayor Jas. Blagie has instituted the suit to oust Transue and Blagie and Pfaffenberger are trying to hide behind the cloak of temperance, while it is a well known fact that they stand for a wholesale liquor license in addition to the two cafes now open.

"The two cafes are conducted in a most orderly manner, and I would like to have all the people of Santa Ana and Orange county come down tomorrow—Orange County Day at Seal Beach—and see for themselves whether there is anything they can find fault with."

## AT THE COURTHOUSE

### NAMES GUARDIAN TO SECURE A LICENSE

Before William E. Lindsay of Taft could get a license to marry Miss Florence E. Sweet of Santa Ana, court proceedings were necessary in order that there might be someone legally authorized to give Lindsay permission to get a marriage license.

Charles Winans became the petitioner in the proceedings put through by Attorney J. C. Burke, and when Winans was made Lindsay's guardian, consent to the issuance of the license was given. Lindsay is 20 years old.

**Foreclose Mortgage**  
Action has been brought by D. W. Hurst against W. A. Zimmerman and others to foreclose a \$5,000 mortgage on residence property on North Main street, opposite the Intermediate school. Williams & Rutan are attorneys for the plaintiff.

**Big Deed Recorded**  
A deed that required \$87.10 in fees for recording was turned in at the office of the county recorder today. The deed is a trust deed to the Harris Trust & Savings Bank and the Los Angeles Trust & Savings Bank of all the property of the Southern California Edison Co. in Southern California counties. The trust is to secure a bond issue of \$10,000,000.

**Santa Ana Art Academy**

## FATHER OF LOCAL BANK CASHIER DIES IN EAST

**O. A. Simmons Returns Home Last Evening to Find Wire of Father's Death**

Called to Nortonville, Kans., a few days ago by the serious illness of his father, O. A. Simmons, cashier of the Orange County

## LECTURE MOVIE STAGED BY BIG AUTO COMPANY IS SUCCESS

Big Crowd At Clune's Learns Mysteries of Manufacture Of Knight Motor

There was a well filled house at Clune's theater last night, who witnessed a splendid entertainment of moving pictures and listened attentively to a lecture given by E. R. Sues on the Knight Sleeve Valve motor.

The motion pictures showed the great Overland factory in all departments and also depicted the making of Knight motors from start to finish. As the pictures were thrown on the screen Mr. Sues of the Willys-Overland factory explained them in an interesting manner. Sues gave an instructive talk on the history of the Knight motor which he stated has for a number of years been the recognized leading motor by European manufacturers of automobiles. He stated that all the fighting machines, tanks, etc., used by the warring nations of Europe are equipped with Knight Sleeve Valve motors. The

familiar Motor Company, the largest manufacturers of motor cars in England, use only Knight motors. The lowest priced car made by this company sells for \$6000.00 and they make cars that sell as high as \$16,000.00.

The moving picture part of the entertainment started with a comedy sketch in which an automobile played a prominent part. Then followed a picture of what was stated to be the largest single factory building in the world. This picture was taken from the rear of a moving train. Another section of the picture program showed the assembled delegates from all parts of the world at the Overland convention which was held at the Toledo factory last December and shows John Willys, president of the Willys-Overland company, addressing the delegates. One of the largest delegations to this convention from any state was from California.

A general view of the Overland factory showing every department of the vast plant was taken from a traveling train and depicts the workmen turning out Overland automobiles at the rate of 1000 a day. There were other close-up views which gave a very clear understanding of the working of a Knight Sleeve Valve motor.

Pictures showing a number of stunts by Overland cars were interesting features of the entertainment. A Knight car was shown climbing the steep Fillmore street grade in San Francisco, without a driver. A Country Club Overland climbs flight steps forward and afterwards is made to climb the same flight backwards.

F. L. Austin, local Overland dealer, who at considerable expense brought the entertainment to Santa Ana, is to be congratulated on his enterprise. All who attended the performance have only words of praise of its excellence.

## ORGANIZATION IS LAUNCHED BY TOMATO MEN

Growers' Body to Affiliate With Cabbage Producers' Association

FULLERTON, July 24.—Tomato growers at a meeting at Orangethorpe school house, formed an organization and affiliated with the cabbage growers' association, electing the same officers. In addition the tomato growers named a committee composed of W. O. Broady, A. D. Sandoval and C. M. Annin to work in conjunction with the president and the directorate. The tomato growers will select a name for their association at the next meeting. The officers of the two organizations are C. L. McCumber, president, and Pete Nicolas, Geo. Trapp, Ernst Borcher and M. H. Seaver, directors.

## SECRET SERVICE OF U. S. BIGGEST IN WORLD

WASHINGTON, July 24.—Uncle Sam doesn't make as much noise about his secret police agents as Kaiser Bill does about his Wilhelmstrasse but the star spangled sleuths get there just the same. The United States has one of the biggest secret police systems in the world. It is composed of:

1. The Bureau of Investigation, Department of Justice, headed by Bruce Lielaski. In peace times this organization hunted white slavers, anti drug law violators, and other offenders. Now it hunts German spies and pro-kaiserites.

2. The secret service is headed by Chief Flynn. Its main duties are to catch counterfeiters for the Treasury department, and furnish the President a secret service squad.

3.—Secret police systems of other government departments—such as post office inspectors to nab mail law violators. The army and navy have their own means of getting information of military value.

The biggest job right now is war work. The secret service throws its tentacles in every direction feeling for plotters against the President. The Bureau of Investigation muzzles disloyal schemes. The army and navy sleuths dig into enemy war plans. In their hunt for anti-American agitators, Uncle Sam's secret police mingle with crowds, participate in mass-meetings, use the telephone. If a mob gathers, the chances are a quiet gentleman with a little badge in his pocket is among those present. They incline an ear to the ravings of pro-Germans and by mysterious methods become aware of what America's foes are doing in Berlin as well as in New York.

Through channels Sherlock Holmes could never discover, reports come regularly into Washington, and orders go out. Many Kaiser boosters, although they remain blissfully ignorant of it, are watched by the government as a cat watches a mouse. Their doings and sayings are systematically chronicled and filed away for reference in Washington.

Detailed reports come in, dealing with actions of persons thousands of miles away in alien lands, and right here at home, in Chicago, New Orleans or Los Angeles. If the Kaiser says anything worth while in his sleep Washington has a good chance of hearing it.

RAW DEAL CHARGED IN MAIL CHARGES

Tribune In Arms Over Proposed Plan to Kill Rural Route No. 3

Certain actions by the Post Office Department regarding mail routes at Fullerton evidently are far from meeting with the approval of citizens of that city, as witnesses the following from the Fullerton Tribune:

Instructions have been received from Washington to kill the old established rural route three from Fullerton. This was one of the first routes to be established in Orange county many years ago.

The government inspector sure pulled a raw deal on Fullerton when he recommended that this route be killed.

Not one person in Fullerton was aware of the fact that steps were being taken to discontinue it.

A new route to be established from La Habra will serve people who have been getting mail on route three from Fullerton. It seems that the inspector has it in for Fullerton.

A number of times recommendations have been made that would greatly injure or kill off certain routes from Fullerton. In fact, the Fullerton Board of Trade has been kept busy at times in an effort to save the old established routes from this city, notwithstanding that the business on these routes is increasing annually.

So far as we know Fullerton is about the only city in the state that has to keep up a fight to save its routes.

La Habra has a perfect right to organize a new route from that city, but it is not right for any person or persons to ask the government to kill a route from Fullerton so that city can get a route of its own.

It is not fair for any government inspector to recommend the killing off of one of Fullerton's routes without giving the people of this city an opportunity to be heard from.

It is not right for any city to try to boost its interests by injuring another. Not one penny will be saved by the change.

The carrier on number four, one of the best in the service, will lose his job, and the carrier on the route to be killed will be transferred to number four.

The route will be slaughtered August 1. Yes, one was slipped over on Fullerton.

Residents of La Habra Valley have been getting a good mail service from this city as Fullerton has twenty trains daily, including a number of overland trains.

After route three from this city is killed mail from this part of Orange county will reach that valley in a round-about way and the valley residents will never get as good service as at present.

## MEN FOR BAKERY UNITS IN ARMY ARE WANTED

The following has been received from Washington by Postmaster C. D. Overshiner:

The Quartermaster General has been directed to organize at once forty bakery companies in addition to the ten companies now within the Continental limits of the United States.

These companies will be numbered from 1 to 52, Nos. 5 and 6 are in Honolulu and the Philippine Islands.

The personnel of these companies will consist of:

1 1st Lieutenant.  
1 2nd Lieutenant.  
1 Sergeant, first class, \$51 per month.  
23 Sergeants, \$44 per month.  
15 Corporals, \$36 per month.  
45 Privates, first class, \$39 per month.  
15 Privates, \$30 per month.  
2 Cooks, \$35 per month.

In addition the government furnishes food, lodging and clothing.

The equipment consists of the Army Field Bakery No. 1 oven with equipment. One of these ovens with equipment is designated as a unit, and is so equipped that it is a field bakery in itself with a personnel of 6 men capable of supplying 1800 men per day with bread.

Fifteen (15) of these units constitute a bakery company and the company has a capacity of 40,000 pounds of bread per day.

This is an opportunity for strong and energetic young men to learn a trade. Men who volunteer now will have an excellent opportunity for promotion. There are about 800 vacancies in the grade of Sergeant Baker and 600 in the grade of Corporal to be filled by the most capable men.

In addition to this there will be vacancies in the grade of 1st and 2nd Lieutenant for experienced bakers with the necessary educational qualifications. A young man with a good high school education stands a good chance to enlist, learn the baker's trade, and place himself in line for promotion to the grade of non-commissioned officer and commissioned officer. Why not enlist now for one of these companies? You have an opportunity for service abroad and a good chance for promotion.

The Quartermaster General has decided to offer the commissions in these companies to deserving men from the ranks.

By authority of the Quartermaster General.

O. J. CHARLES,  
Major Q. M. Corps.

## 'SUFF' RIOTS AT WHITE HOUSE REHEARSED

WASHINGTON, July 23.—Every militant suffrage disturbance in Washington is planned, rehearsed and staged by the National Woman's Party like the big scene in a movie melodrama. Then it is "put across" on schedule time, when the suffragist captains are sure the newspaper correspondents and camera-men are out in force, when advance notices have drawn a crowd to the spot and when the vote hunters are sure they will get their money's worth in world-wide publicity.

Miss Alice Paul and Miss Lucy Burns are the stage-managers. They write the scenarios. Mrs. Abbey Scott Baker, Queen of Press Agentesses, commands the army of fair scribes which spreads the startling details and makes sure all newspapers and press associations are kept informed.

When a riot is planned the hour is usually set for 12:30 p. m. or 4:30 p. m., when the necessary spectator and participants will be supplied by crowds of clerks coming from the State, War and Navy building. The militants' "show" is planned at their headquarters near the White House. Volunteers crowd around the leaders, anxious to be cast in prominent roles. Mrs. Baker's brigade gets busy. Telephone tinkle in all newspaper offices. The event is announced. The rehearsal completed, out sally the women, do their stunts, get arrested, get released and return to headquarters.

Then rings the clatter—clash of typewriters. They batter forth sarcastic descriptions of the scene.

And when the dust settles, the patrol wagons cease their clangor and the angry cries of the mobs die away, staring headlines in the newspapers mark the end of the militants' perfect day.

MAYR'S WONDERFUL REMEDY FOR STOMACH TROUBLE ONE DOSE WILL CONVINCE

## \$1 Saved the Cost of New Wheels

Mr. H. G. Thompson, Modesto, Cal., says: "The wheels on my automobile were in such bad condition that I was contemplating throwing them away and buying new wheels. My attention was called to Spoktite and I decided to give it a trial. It tightened the wheels absolutely tight and I have had no trouble since."

For Auto, Carriage and Wagon Wheels

Simply squirt a small quantity of this liquid compound into the cracks caused by shrinkage at the hubs and felloes. In an hour you'll see results—your wheels will tighten right up.

It goes right in to the shrunken wood, swells it to its original tightness and keeps it tight. Thousands of people have used Spoktite and it

Sold in Garages, Auto Supply and Hardware Stores

Get a can of Spoktite at once and tighten the wheels of your auto, carriage or wagon. You'll save yourself lots of trouble—perhaps prevent mighty serious accidents. If your dealers don't sell Spoktite, write our factory and we will see that you are promptly supplied.

Manufactured by the Liquid Wheel Tightener Co.

**AUTOSIGN GRAMMAR STIRS SCHOOL CHIEF**

SACRAMENTO, Cal., July 23.—How trying it must be for teachers of grammar in this age of the swift automobile, remarks Will C. Wood, state high school commissioner.

"We have been trying to impress upon our pupils that 'slowly' is an adverb used to convey the idea of moving in a retarded manner," says Wood. "But everywhere I go I find a placard on the roadside at a convenient distance from each school building, giving warning to automobilists that they are approaching a school consequently they must 'drive slow.'"

"Can we teach our pupils that 'drive' is a verb? I suggest that we bow to the claims of popular usage and adopt 'slow' as an adverb."

**TESTIMONY BEGINS IN SUIT AGAINST U. S.**

SAN FRANCISCO, July 23.—Assistant U. S. Attorney General Thompson and Philip G. Walker of the department of justice began taking testimony today in a damage suit against the government which may involve millions of dollars.

The Natron Soda Company and Hortsman and Company, owners of the soda lakes in Nevada, are suing the government for initial damages of \$750,000, alleging that seepage from federal reclamation canals has washed most of the soda from the lakes, ruining their business.

**ACTOR, LONELY, ENDS HIS LIFE IN L. A.**

LOS ANGELES, July 23.—Tazwell Weatherford, actor, heard friends speak of their wives and kiddies, and the happy homes they made. His own home "wrecked." Weatherford grew melancholy and then desperate. He left his friends and hours afterwards was found—dead. He had taken a strong poison. His wife will be notified in St. Louis.

**INQUIRY IN BERKELEY BANK ROW NEARS END**

BERKELEY, Cal., July 23.—Judge Charles E. Lobdell sent from Washington to investigate the row in the directorate of the Federal Land Bank, announced today that he expected to conclude his inquiry tomorrow. The investigation has been marked by silence on the part of all concerned but Judge Lobdell has promised to break this silence with a statement at the conclusion of the probe.

# RESERVE CORPS IN NAVY OPEN TO DRAFTED MEN

Many Young Men Call At Re-  
cruiting Station For Infor-  
mation On Service

Young men of the county subject to the first draft and who have clerical ability may find opportunity to serve with the navy by enlisting as yeomen in the reserve corps. Enlistments may also be made for fireman, machinist, electrician and in the hospital corps in the reserve.

According to local Recruiting Officer Kelleher, in charge of the naval office, the only branches of the navy now open to enlistment are fireman, machinist and apprentice seaman. Under these, enlistment is for a period of four years; under the reserve, for the period of the war only. Men enlisting in the latter may not be called for some time, but it is reasonably certain that they will be called before the war is over.

C. F. Willis, formerly an employee of

the Southern California Sugar Company, who enlisted in the navy on June 19, yesterday received orders to report tomorrow. He is a member of the Elks and has been making his home at the hall.

There has been a great deal of inquiry at the recruiting station for information on the navy service by young men whose numbers were drawn within the first draft. Fourteen men were in the office yesterday and today six signed up and most of them went to Los Angeles today to take the examination. They were Arthur Porter, C. S. McCausland, V. M. Goodson, all of Fullerton; M. M. Durham, Riverside; Frank Lipscomb and Fred Devenney, Santa Ana.

The announcement by a former recruiting officer that eight men were wanted from Orange county for the aviation corps was a mistake, according to the man now in charge here. He says that only men of experience in the handling of aircraft are being accepted at this time.

## MAN, ONCE SLACKER, DIES HERO OF BATTLE

LONDON, July 5 (By mail)—Conscientious objector, shirker, volunteer soldier and now one of England's dead heroes—that is the war career of Henry Bellamore.

When war came Bellamore called it the Devil's invention. He fought against conscription on conscientious grounds, preferring jail to the battlefield.

"If I ever see a wounded soldier fall with his crutches I won't help him up again," said Bellamore. "This so aroused his neighbors at Bath that they burned him in effigy."

A few weeks later he experienced a change of heart. Though exempted from the Army he volunteered. Soon he was the most popular soldier in his regiment, the Duke of Cornwall's Light Infantry.

Recently the former conscientious objector was killed in action, the supreme sacrifice.

# SHERIFF'S TALK OFFSETS THAT BY MEXICAN AGITATORS

Talbert Growers Have Trou-  
ble Getting Laborers to  
Start In With Harvest

(CONTINUED FROM PAGE 1)

ought to get that bonus at once.

Last night Sheriff Jackson with Under Sheriff Iman and Deputy Fowler and an interpreter arrived at Talbert, and all the Mexicans of the neighborhood were called together.

Jackson told them that he had been informed that agitators had been giving them advice that he believed was not to their best interests. He said that the sugar factories did not propose to have the farmers lose their crops, and plans were already afoot to bring labor from outside if the home laborers refused to do the work.

"We do not want anything of that kind to happen," said the sheriff. "It would mean that you people who live here would either have to go elsewhere or you would not get any work at all. The ranchers cannot afford to pay the big prices that would be demanded of them if this thing is allowed to go on. If you people want to work here this summer, the best thing you can do is to settle down, get jobs and stay at work."

"I have heard that someone has threatened that you will be stuck in the back if you do not do as they tell you to do. I want you to give me any information you have concerning those threats, and I will deal with the man. You will be protected. If there is any trouble of any kind, report to the sheriff's office at once."

This morning nearly all of the Mexicans in Talbert were ready to go to work, and the fields close in around Talbert had their full quota of Mexicans today. At Klant, however, the few ranchers who are plowing their beets were having the same difficulty in getting the Mexicans started that they had yesterday.

## 'TOO FAT' MAN TRIES 6 TIMES TO ENLIST

LOS ANGELES, July 24.—Four hundred and twenty pounds avoidupois can't be offset by even twice that much patriotism or even more, according to George J. Tuckett, who has found he is too fat to enlist. Tuckett tried six times to give his services to Uncle Sam without success. Now he says he might be assigned as motive power to one of the big "tanks" on the west front.

## ADHESIVE PEDDLERS ARE SOUGHT BY U. S.

LOS ANGELES, July 24.—Court plaster venders who, it is feared, may be peddling germ laden plasters are being sought by federal agents here and in Barstow today. Assistant U. S. Attorney Lawson received a telegram notifying the department of the presence in Barstow of a man answering the description of one wanted here for peddling inoculated court plaster last week. Another peddler is sought in the city.

## MOONEY CASE JURORS STILL DEADLOCKED

SAN FRANCISCO, July 24.—Hopeless division of the jury in the Rena Mooney bomb plot trial was indicated today when Judge Seawell reconvened court to await a verdict from the twelve men who held the fate of the woman charged with murder in connection with the preparedness parade explosion of a year ago.

Rumors that a score of ballots had already been taken and that two of the jurors were standing out against an agreement were circulated in the hall of justice. One of these reports was that ten of the twelve favored acquittal and another report that the ten favored conviction. None of these rumors could be confirmed, of course.

That the deliberations of the jury have been exceedingly stormy was clearly shown. Within four hours after the twelve men retired, sounds of verbal strife came clearly from the jury room. One man, in heated debate, was heard to call another "an anarchist" and hot words, audible even on the floor below the jury room were plainly audible. Later in the evening, however, the tone of the deliberations quieted down and it was presumed that balloting was continuing.

Judge Seawell and a crowd which packed the room remained in the court room until nearly midnight and then the jurors were locked up for the night. Up to the time of reconvening court today, the twelve men had made no requests for additional instructions nor had they asked for anything but the usual transcript of the evidence.

Mrs. Mooney remained in her cell today looking worn out from her long ordeal but retained her smile of confidence nevertheless. She told fellow prisoners that she feels certain that the jury cannot possibly convict her. Her confidence is shared by her husband and the other defendants in the bomb plot cases and by her attorneys.

SAN FRANCISCO, July 24.—Mrs. Rena Mooney was the third to be tried of the five people arrested following the bomb explosion which killed ten people and injured more than fifty during San Francisco's preparedness parade of July 11, 1916.

Mrs. Mooney's husband, Thomas Mooney, was convicted and sentenced to death but now is awaiting action giving him a new trial and Warren K. Billings is under sentence of life imprisonment for what is claimed to have been their parts in the crime. Israel Weinberg, jitney driver, is awaiting trial and Edward Nolan, machinist, is at liberty on bail and may never be tried.

Mrs. Mooney's trial followed that of her husband, but between the two trials there came developments as a result of which Frank C. Oxman, whose testimony was the sensation of the Thos. Mooney trial, now is facing charges of subornation in perjury. After Mooney had been convicted, largely on Oxman's testimony, F. E. Rigall of Grayville, Illinois, placed in the hands of the defense letters claimed to have been written to him by Oxman, asking Rigall to give perjured testimony against Mooney. The authenticity of the letters was not denied and Oxman was arrested and held for trial.

May 21, while the Oxman affair was still fresh, Mrs. Mooney went on trial, charged with complicity in the murders. The prosecution offered testimony by which it intended to show defendant had conspired with the other bomb case defendants, to explode the bomb during the preparedness parade and further maintained the explosion was the climax of years of plotting against society.

The defense had three distinct lines of evidence. First witnesses were offered to support a theory that the bomb never was contained in a suitcase placed on the sidewalk as the state claimed but was hurled from the roof of an adjoining building. The second line of defense was to prove alibi on all phases of the state's case and the third phase was the contention that there had been no conspiracy.

Judge Emmett Seawell of Santa Rosa, who was called in when Judge Dunne refused to preside, occupied the bench during the trial.

## Girls! Use Lemons!

### Make a Bleaching, Beautifying Cream

—The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smootheners and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is simply marvelous to smoothen rough, red hands.

## BROADWAY RESIDENCE TO COST ABOUT \$8500

Foundation work for the new residence to be erected at 1008 North Broadway for A. T. Armstrong has commenced. Plans drawn by Architect Fredk. H. Eley call for a two-story building of the Dutch Colonial type. Floors of the front porch and driveway will be surfaced with brick laid in appropriate designs. The living room and library will be finished in oak and dining and breakfast rooms in enamel. The living room and library will each have a brick and tile fireplace. The second floor will have four bedrooms and a large sleeping porch, also large balcony over the covered driveway.

The building is under the direct supervision of the architect and will cost approximately \$8500.

Sidway baby carriages, Chandler's. 510-516 North Main St.
